

KEY ISSUES OF THE SP ELECTION PROGRAM 2022 – 2026

Make Maastricht a more social, cohesive and caring city

Quality of healthcare and public services are our top priority. Commitment to prevention and a healthy lifestyle. We advocate a personal approach in services and policy, placing people above bureaucracy and protocols.

More sustainable, cleaner, healthier and greener Maastricht

More space for bicycles and recreation. Less polluting traffic and waste. Introduction of an environmental zone. Park & Rides on the outskirts of the city.

Put a stop to the growing divide within society

A comprehensive approach to poverty reduction and prevention. Support for middle groups. Inclusion for all. Accessibility of buildings for people with disabilities.

Together we can achieve more

Room for initiatives from below and from the neighbourhoods. Really listen to the residents of our city. No large-scale prestigious projects for the few.

Liveable and safe neighbourhoods

More police officers in the streets. More time for police officers to work the streets of our districts. Apartment building supervisors. More meeting places in the neighbourhoods. Playgrounds. Clean up neighbourhoods.

Learn and experience together

More diversity, inclusion and equal opportunities in culture, art and education. More encounters and learning together in secondary education, MBO, Zuyd Hogeschool and Maastricht University.

Work and entrepreneurship with equal opportunities

Stimulate local and regional employment. Real jobs and no pointless reintegration. We believe everyone matters and can contribute. Fair salaries. Support for small and medium-sized businesses and the self-employed. Distribute wealth and growth fairly.

Housing is not a market for investors

We want more social housing, with affordable rents, for the many. Slum landlords are not welcome in Maastricht. More security for tenants. The city housing policies also apply to the city center.

More facilities for sports and culture

More support for arts and social life. Subsidy for Open Monument Day. Sport should be accessible and affordable for everyone: young, old, people with disabilities. More outdoor sports areas for young and old.

Trustworthy and fair politics

Sincere and committed politicians who know real life and work together with the inhabitants of our city. An open attitude and bottom up approach to citizens initiatives.

WHEN NOTHING GOES RIGHT, VOTE LEFT!

Don't let your vote go to waste and choose the SP during the municipal elections of Wednesday, March 16, 2022

You can find our full program (NL), our 10 key issues (NL/EN) and more about the SP in Maastricht on our website. www.maastricht.sp.nl or follow us on Facebook www.facebook.com/SPMaastrichten en Instagram.
